

## CHECKWEIGHER

The Volmpack Checkweigher is specifically designed for the accurate weighing of fresh produce packages. Using the newest technology, today's Volmpack Checkweigher provides the most consistently accurate solution in the market. It's sturdy and steady construction is the key to its accuracy in weighing. It weighs products from 1 to 22 pounds with production rates up to 70 packages per minute.

The Checkweigher is available with three different reject system options, to provide the optimal solution based on your package style, size and weight.

---
