

## MD12

The MD12 is the most popular weigher in the Volmpack lineup. It offers amazing speed and accuracy for many packing facilities, while also being economical. The MD12 also offers a packing range from 1 to 50 pounds at rates up to 60 bags per minute, which is great for the majority of packing facilities.

### FEATURES

- Two rows of six wide bucket scales to weigh a variety of produce types
- High speed computer scans the weights available in all 12 buckets and chooses the best combination to provide the most accurate and speed
- Strong, stable frame with vibration isolation
- Touchscreen computer
- Two computers for performing diagnostics or maintenance while also operating the weigher
- Operators can save packing styles in a user-friendly program for quick and easy changeovers
- Optional belts available versus vibrating lanes
- Optional router for remote assistance
- All product contact points are either stainless steel or plastic
- Large hopper for good spread of product over lanes
