

DLM Clamshell Filler

The DLM Clamshell Filler was designed with the cherry, cherry tomato, and small produce packers in mind. Together, with a cherry packing facility, the DLM Clamshell Filler was developed to work gently and efficiently with small products.

Packing facilities interested in automating clamshell and punnet filling will benefit from this packing machine. And, at rates up to 44 packages per minute, it is a great addition to any facility looking to reduce labor and increase production.

FEATURES

IP 65 rating for protection from dust and low pressure water jets
